Euro Ph.D. International Summer Schools and Lab Meetings: Structured International Mobility

The European Ph.D. on Social Representations and Communication programme also provides structured international mobility of both research trainees and teaching staff at the individual and collective levels.

Individual research trainees are required to relocate abroad for at least six months to work in two different European countries and two different research centres at host institutions with which their tutors are associated and from whom they receive individual tutoring and co-tutoring for their research work. Collective mobility involves all research trainees enrolled in the program and tutors from all the partner universities and is achieved during intensive stages, the International Summer Schools, or the face-to-face sessions of International Lab Meetings (Intensive 10 day winter and spring seasons). In addition to provide for the improvement of cross-fertilization of ideas and research practices between research trainees with different levels of expertise and coming from different institutions and research centres, leading scientists and experts from outside the network are invited to teach and a limited number of post-doctorate researchers and research trainees from around the world enrolled in other doctoral programmes in related scientific fields are admitted as participants.

The end result is that Euro Ph.D. research trainees are involved in an interlocking system of virtual and physical mobility that allows for considerable flexibility in catering to students' research needs while at the same time guaranteeing individual tutoring and interactive learning. They are offered a broader range of international expertise for their research than would be possible at the national level.

Structured "physical" and "virtual" mobility as an integral part of the European Ph.D. on S.R. & C. research training

individual and collective PHYSICAL MOBILITY

STAGE ABROAD in two different European institutions (sites of the two co-tutors) supported by Marie Curie fellowship, by grants from MIUR and University

INTERNATIONAL SUMMER SCHOOLS, supported by Marie Curie actions and MIUR

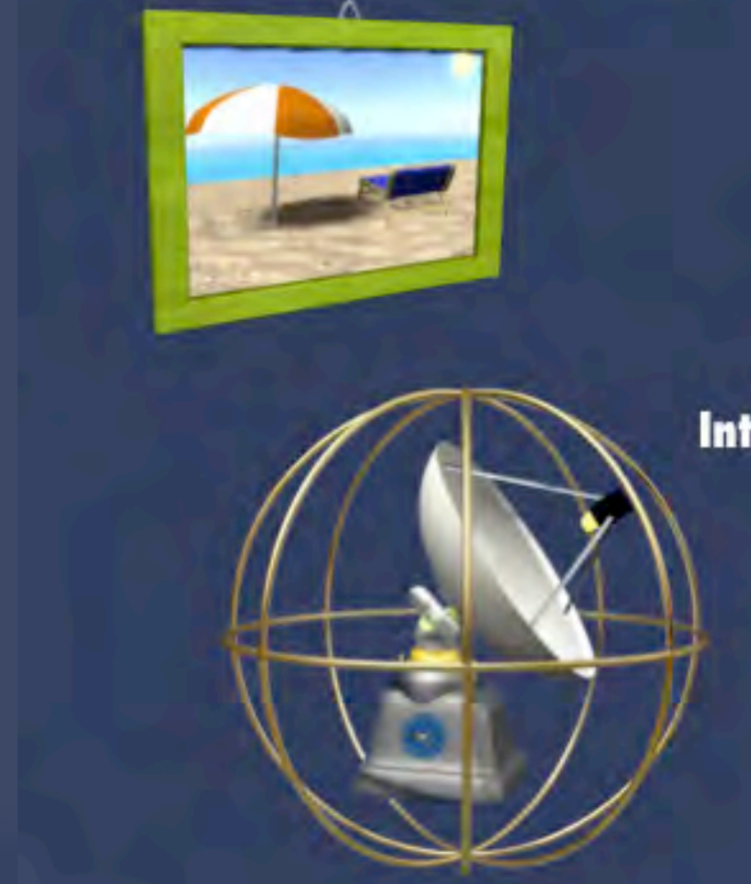

individual and multiple VIRTUAL MOBILITY

- Distant individualised tutoring and research progress monitoring via personalised website for each research trainee

- International Lab Meetings via Euro Ph.D. web auditorium

- Distant training on meta-theoretical analysis and access to specialised Virtual Library and bibliographic inventories

INTERNATIONAL SUMMER SCHOOLS

International Summer Schools on Social Representations and Communication

- 1995: ITALY (Roma) 1st International Summer School: "Theory Building, Social Representations and Communication"
1996: ITALY (Roma) 2nd International Summer School: "Multiple strategies in the investigation of Social Representations"
1997: PORTUGAL (Lisbon) 3rd International Summer School: "S.E. Theory: Methodology, Ontology and Development"
1998: SPAIN (San Sebastian) 4th International Summer School: "The theory towards applications"
1999: ITALY (Roma) 5th International Summer School: "Analytical European Social Training"
2000: ITALY (Roma) 6th International Summer School: "Social Representations Theory Around the World"
2001: ITALY (Roma) 7th International Summer School: "Communication, Language, Representations, Interaction"
2002: ITALY (Roma/Saint-Denis) 8th International Summer School: "Communication, Media, Social Interactions and Social Representations: New Media, Media and Internet"
2003: ITALY (Roma/Saint-Denis) 9th International Summer School: "Communication, Media, Social Interactions and Social Representations: A Theoretical and Methodological Dialogue Through research - IRLT (Roma/Saint-Denis)"
2004: ITALY (Roma/Saint-Denis) 10th International Summer School: "Communication, Media and Social Representations: Social Influence and Communication in the new scenario of the information society: Is it possible to change the individual?"
2005: ITALY (Roma) 11th International Summer School: "Applying the Foucault Theory and Statistical Analysis via RDP software to Research on Social Representations: Computer Mediated Training Sessions, Both Theoretical and Methodological"
2006: ITALY (Roma) 12th International Summer School: "Applying Biological Approaches and Conversational Analysis via Focus Groups to Research on Social Representations"
2007: ITALY (Roma) 13th International Summer School: "Theoretical Approach to Social Representations and Communication in Action and Construction in Media and Society and focus on advanced practical training for 25 participants (20 European Ph.D. research trainees and 5 post-doc), senior academic experts leading the seminars in cooperation with two young research assistants, internationally recognized keynote speakers and some experts working outside the academic circles."
2008: ITALY (Roma) 14th International Summer School: "Social Representations, Collective Memory and Socially Shared Emotions: narrative and experiential approaches"

International Lab Meetings

The European Ph.D. on Social Representations and Communication International Lab Meetings

So.Re.Co.MEDIA&SOCIETY
The innovative didactic formula integrates more intensively the "physical" and "virtual" mobility.
The originality of this program is found in its innovative training method, combining face to face interaction in a variety of training situations (workshops, keynotes, research trainees presentations) with mediated virtual interaction (Internet forum discussion, web-conferencing, streaming videos on the web) for training purposes, especially long term dissemination of the scientific events.
We continue the International Summer School's tradition of achieving "steps forward" by addressing state of the art scientific problems through valuable research training methods and innovative applications.

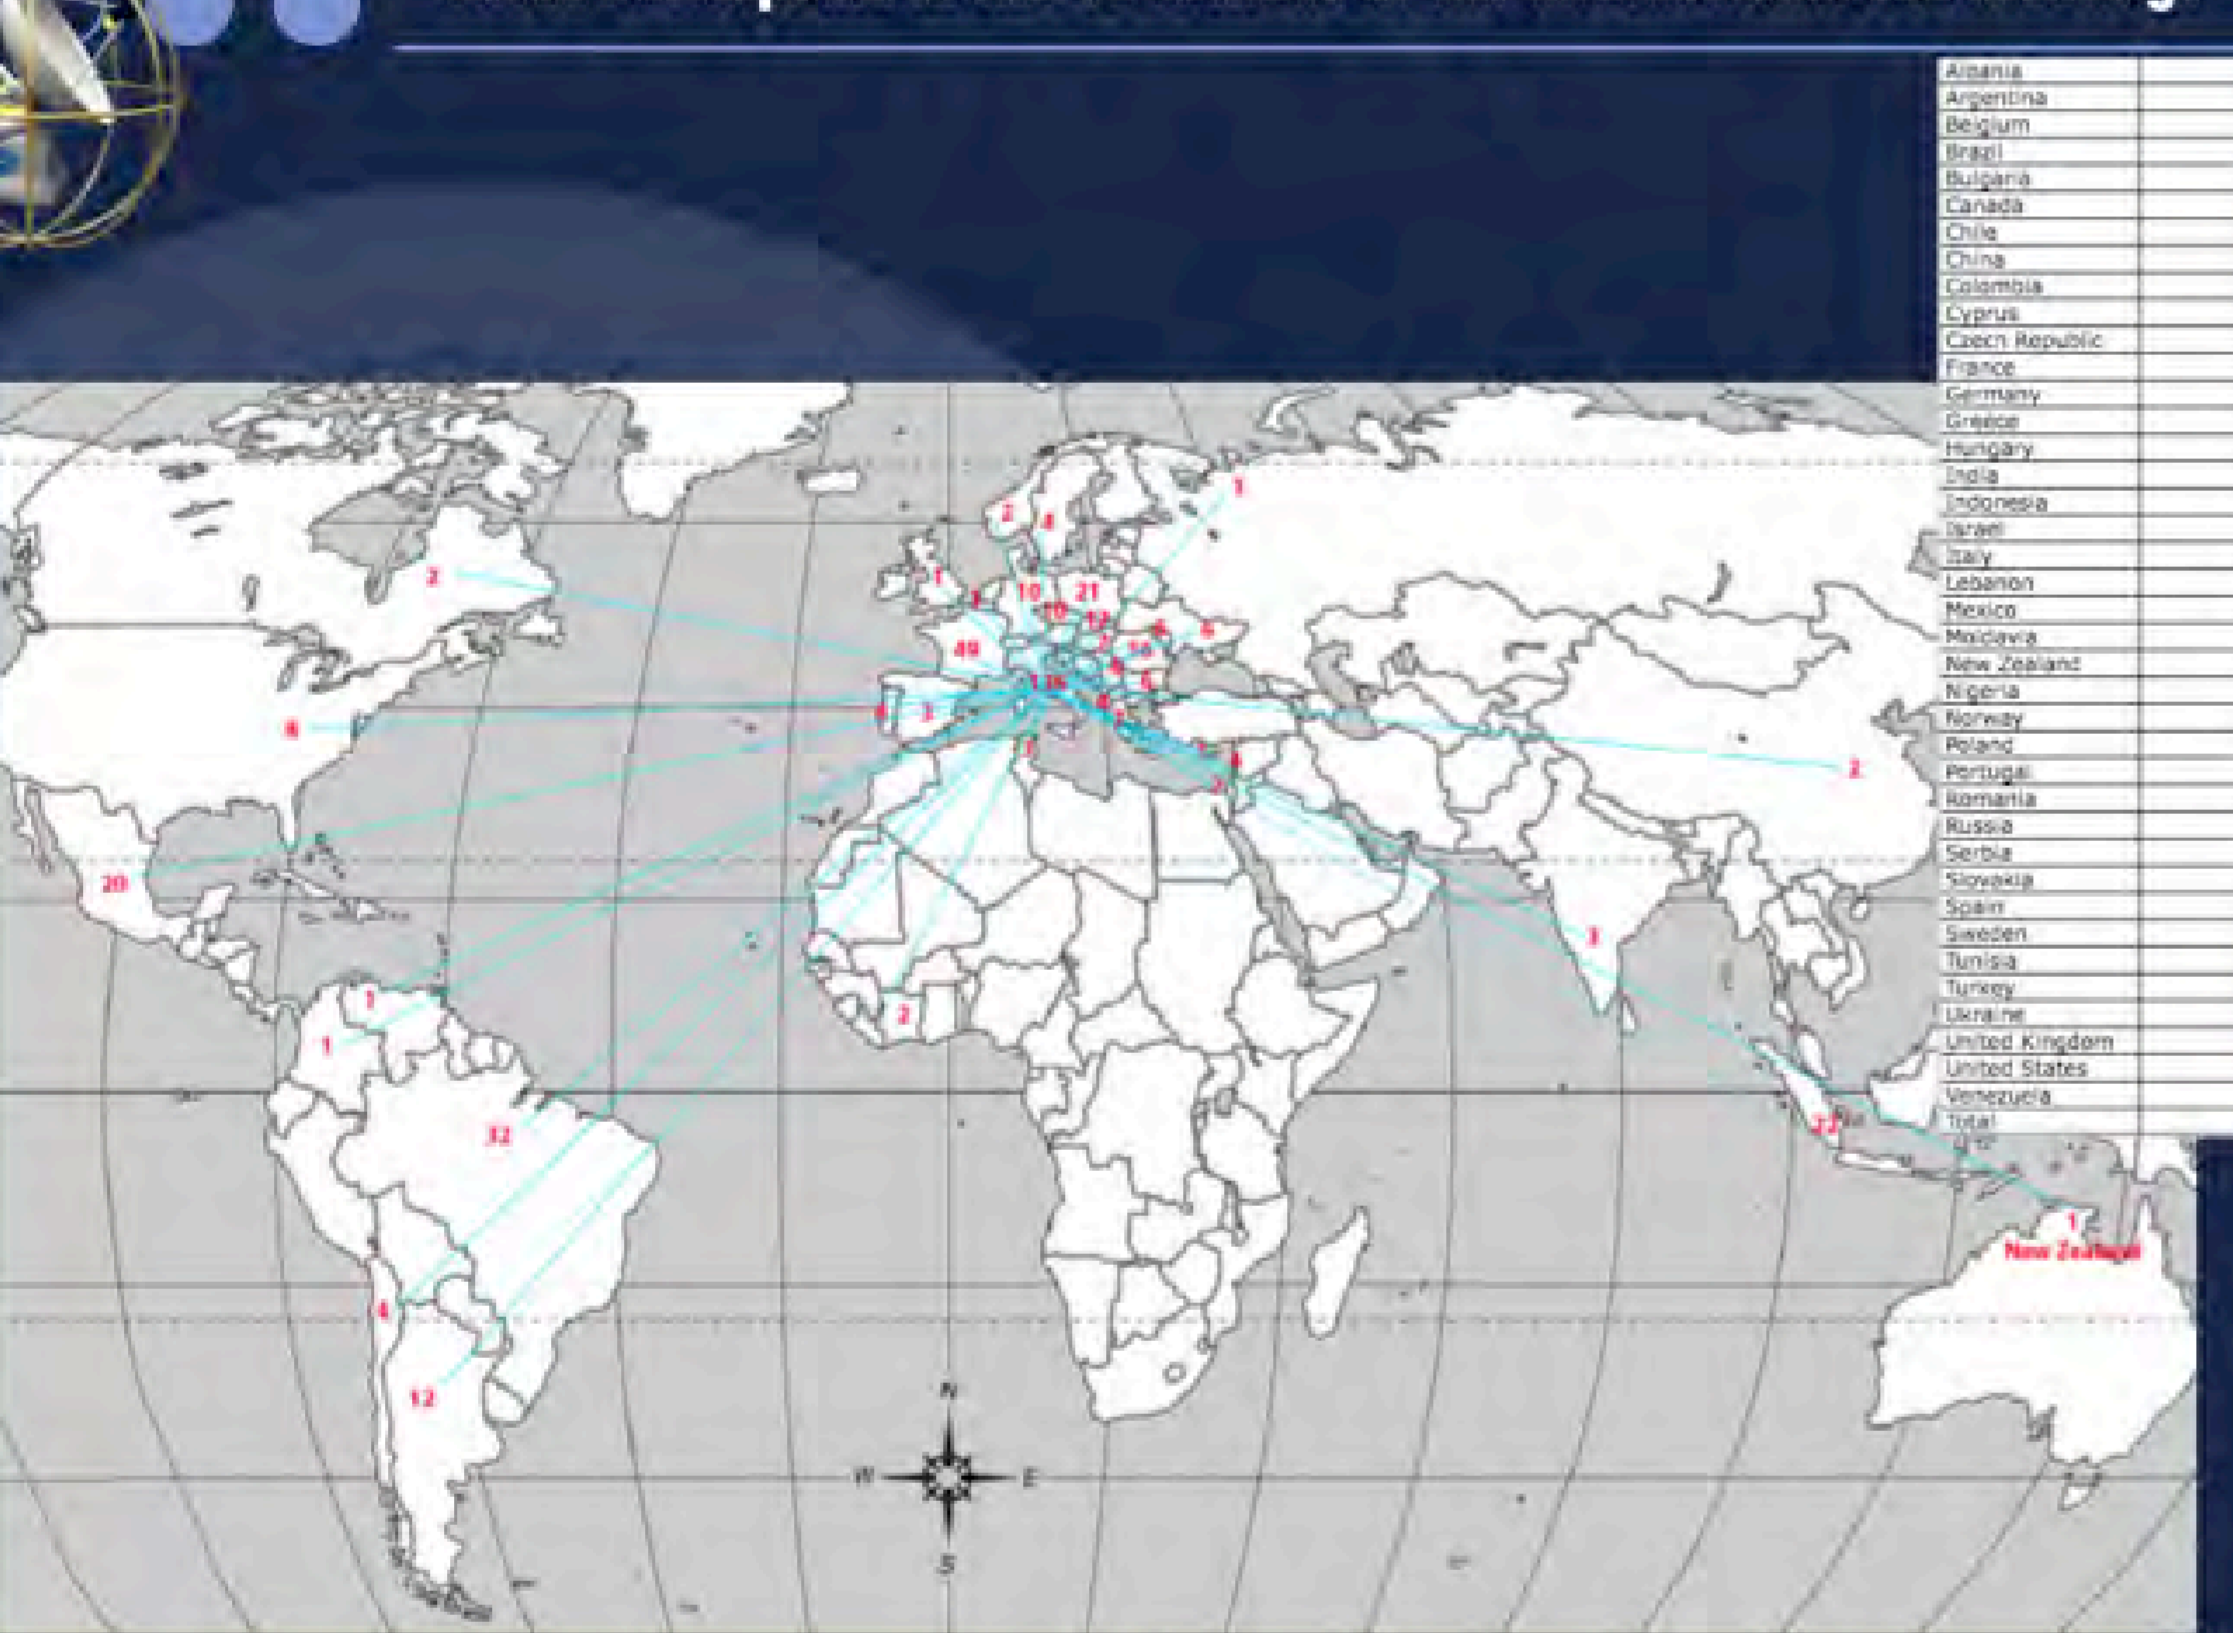

The European Ph.D. on Social Representations and Communication International Lab Meetings

So.Re.Co.MEDIA&SOCIETY
The new series of the European Ph.D. on Social Representations and Communication International Lab Meetings (2004-2008) - approved under the action Marie Curie Conference and Training Course - is the successor to the decade of International Summer Schools, providing an important opportunity for young researchers to obtain advanced academic and technical skills needed to conduct state-of-the-art research.
Twelve ten days-long courses are organized around the theme of Social Representations in Action and Construction in Media and Society and focus on advanced practical training for 25 participants (20 European Ph.D. research trainees and 5 post-doc), senior academic experts leading the seminars in cooperation with two young research assistants, internationally recognized keynote speakers and some experts working outside the academic circles.

The European Ph.D. on Social Representations and Communication International Lab Meetings

So.Re.Co.MEDIA&SOCIETY
The four-year cycle (2005-2008) of the 12 courses, each lasting ten days and including extra pre and post-event sessions, includes 3 SESSIONS per year:
- the "WINTER SESSION" International Lab meeting integrating virtual and face-to-face intensive training courses dedicated to the monitoring and development of the cooperative research programmes that were launched by Prof. Annamaria de Rosa in 1994, and is part of the advanced training of European doctoral students. Its goals are the meta-theoretical analysis of the full corpus of literature on Social Representations and Communication and building a specialised Intelligent Virtual Library on S.R. & C.;
- the "SPRING SESSION" International Lab meeting integrating virtual and face-to-face intensive training courses aimed at providing or developing expertise in various research methods, techniques, software packages and related method theory guiding applications in research design;
- the "SUMMER SESSION" face-to-face intensive training courses/International lab meetings requiring the physical mobility of all participants (research trainees and professors) and open to long-term dissemination via web.
